

35th Forum - Fellowship Feedback

By Enes Halilović, Bosnia & Herzegovina Neutral Internet Exchange (BHNIX)

First of all, we would like to extend our gratitude to Euro-IX and the staff behind the Association, for providing us the opportunity to attend such an interesting event.

The BHNIX team just started their journey into the IX field, and we found that attending the forum opens many opportunities for overcoming potential challenges faced by many starting IXPs. The major benefit that we recognised during and after the forum is that Euro-IX provides an important community which we found very open, forthcoming and happy to share its knowledge. The presentations we saw gave us a better understanding of the Euro-IX organisation and its practices, and also provided many relevant technical details in the IX area. A number of suggestions and stated readiness to help from some IX's, will contribute to faster and better development of BHNIX.

Lastly, we would like to express our gratitude for the chance to become part of Euro-IX family and we look forward to a long and successful cooperation.
